

8 October 2026

Dear Ms Nguyen,

Thank you for joining the Green Saver Plan. Your switch will complete on your next meter read, usually within 10 business days.

Your new rate is 29.4c per kWh with a daily supply charge of 98c. Because you have solar panels, you will also receive 6c per kWh for energy you export to the grid.

If you pay on time, a further 5% discount applies to your usage charges.

Kind regards,

The Customer Team
